EXPERIENCE

Amazon   **New York, New York**
Program Management Intern   *May 2025 – August 2025*
- Led analysis of 195 AWS compliance controls with Global Security Assurance team to identify potential areas for efficiency and process optimization
- Designed Figma compliance-mapping prototype aligning requirements, stakeholder input and workflows
- Developed framework to analyze program dependencies and evidence reuse patterns across 41 global compliance programs
- Partnered with lead engineer to redesign and implement 120 VR and web UI improvements, driving product roadmap delivery for Virtual Data Center Tours
- Implemented progress tracking and interactive elements to enhance customer experience and streamline evaluation process

Virtual Experience Simulation Lab (VESL) Studio   **Coral Gables, FL**
Head Project Manager   *March 2024 - Present*
- Own Agile sprint planning, backlog management, and roadmap execution for 8 cross-functional teams
- Coordinate scheduling, resource allocation and requirements gathering using Asana to optimize workflow efficiency
- Lead weekly team meetings and stakeholder demonstrations to ensure alignment and milestone delivery
- Delivered 8 grant-funded XR applications by prioritizing features and collaborating with stakeholders to meet requirements

Adroit Trading Technologies   **New York, New York**
Product/Project Management Intern   *June 2024 – July 2024*
- Led UI prototyping and product transition of liquidity aggregator web application from Blazer to REACT
- Designed user interface and experience coordination using Figma to enhance modernity and user intuitiveness
- Collaborated with Head of Product and engineering teams to define technical specifications and implement new features
- Translated complex trading workflows into accessible product features, aligning with market analysis and user research

INVESCO Advisers Inc.   **Atlanta, GA**
Research Analyst Intern – Fixed Income Factors Team   *June 2023 – July 2023*
- Led project diagnosing factor exposures of Fixed Income Mutual Funds to identify performance growth opportunities
- Utilized Excel and R for data analysis of industry, peer group, and macroeconomic factors in EM Sovereign Credit
- Presented recommendations to team leads, showcasing findings from various methodologies and cross-functional reports

LEADERSHIP

KAPPA THETA PI Professional Technology Fraternity   **Coral Gables, FL**
President & Co-Founder   *August 2023 – May 2025*
- Established Kappa Theta Pi's (KTP) chapter at the University of Miami by presenting a proposal to the University
- Developed foundational protocols, governance structure, and operations to ensure growth and membership sustainability
- Managed 15-person executive board to execute chapter initiatives, ensuring accountability and organizational growth
- Created a member engagement program featuring workshops, meetings, and speaker events to foster skill development
- Scaled chapter growth from 10 to 80 members by implementing recruitment strategy and member development

Miami XR 2025   **Coral Gables, FL**
Student Lead Organizer   *September 2024 - February 2025*
- Collaborated with the University's Department of Interactive Media to plan and execute UM's large-scale XR conference
- Led end-to-end event planning, including logistics, scheduling, and coordination with speakers, vendors, and participants
- Moderated the "Jobs in XR" panel discussion featuring 3 industry leaders to showcase career opportunities in XR
